Color plays a key role in Balanced Choice. After all, color has the power to motivate students. Or calm patients. It can stimulate sales or prevent a bad fall. By coordinating all of our solutions across a single, harmonized palette, you can create the kind of environments where happiness – and productivity – thrive.

To help you more easily choose and select colors, we offer unique color capabilities:

Color Foundations

Color Foundations are neutrals that coordinate over our whole system of rubber, vinyl, VCT, VET, SVT and linoleum flooring, finishing borders (wall base), stair treads and accessories. We've identified Color Foundations™ neutrals in the following way: **WB** (warm beige), **CB** (cool beige), **WG** (warm grey), **CG** (cool grey), **B** (black), **W** (white). Hundreds of choices in 6 neutral palettes and a guarantee: You'll always have options within each palette and each product line forever. Guaranteed.

Color Coordination

Color Coordination is at the heart of Balanced Choice. An integrated palette across our full range of solutions makes selection simple and compromise a distant memory. So you can be sure the waiting room is aesthetically connected to the nurses' station, which flows into the patient rooms – no matter what color palette you choose.

ColorMatch®

Color Palette A represents our ColorMatch collection. ColorMatch is a designer palette of 32 leading colors that are scientifically precise. Our exacting standards allow you to confidently mix and match a color across all Johnsonite Rubber and Vinyl Flooring Products and Finishing Accessories.

Customization

When you don't see your perfect color, create it. Get started by using our Design a Space Pro Visualizer at johnsonite.com. While there, experiment with different textures. We offer customized colors in the quantity you want, when you want it, at a reasonable cost.

Selects ♦

The red diamond signifies colors in our Selects palette, a specific set of colors supporting specific Millwork wall base profiles and accessories.

Color palettes A, B, C and D are exact color representations.

All Johnsonite solutions offer unique contributions to a sustainable environment—all part of Balanced Choice.
